

## MESSAGE OF EXPECTATIONS

By: Joshua Neri Cristobal

May 11, 2016

To Most Reverend Ruperto C. Santos, Bishop Diocese of Balanga. To our ever dedicated municipal mayor Honorable Maria Angela S. Garcia. To our school director reverend father Edgardo S. Sigua. To our school principal Ms. Gemma R. Yao. To our school chaplain reverend father Christopher Mapalad. To the GPTA Officers headed by <sup>to our Division School Superintendent Bee Mrs. Jostef to OMC</sup> their president Mr. Noel Santos, the faculty and staff of Saint John Academy, fellow <sup>DBB Superintendent Rev. Fr. Rolando Guiva, to Honorable Alvin L. Luna</sup> Johannines, friends, ladies and gentlemen good afternoon.

I feel blessed to have been given the opportunity to lead my fellow students in delivering our message of expectation as we mark today another milestone in the long and illustrious history of our beloved institution, our second home, Saint John Academy. Indeed, we gather today to celebrate not just the opening ceremony for the annex building, but the start of a new chapter in the story of this academy; a story that began 55 years ago and the worthy endeavor of the founder, the late Msgr. Florentino Guiao to bring catholic education in this community. This special corner where the annex building of Saint John Academy is now built is expected to attract from far and wide, families who wish for their children the gift of continued catholic education even in senior high school for the K to 12 curriculum. For us learners, this site of this building is not just a school, rather it will be a "destination" that will cater to us an avenue to pursue our dreams and aspirations amidst the challenges and transitions of the contemporary world.

Throughout the years, Saint John Academy has been working to refine standards and enhance its academic, co-curricular, athletic, faith, and community extension

programs. The institution has continue to meet the expectations of stakeholders evidenced by graduates who excel in their chosen field of endeavor.

As one of the Johannines belonging to the first batch of learners under the K to 12 Curriculum, we are as just inquisitive as the stakeholders of this institution on what could probably be the setting and the impact of the senior high school in our lives. How lucky we are that Saint John Academy is ready on the demands and needs of such curriculum.

As a future senior high school student in this annex building of Saint John Academy, it is expected that the academe will remain to recognize that every student learns differently, and that there should be the existence of differentiated instruction in classrooms in order to address varied learning styles. Moreover, we expect our Alma Mater to continue upgrading its curriculum and instruction and the professional development for teachers, and be always true in the realization of its vision, mission and core values that will make Johannines partners of our government in nation building.

As we all look forward, Saint John Academy is on its path to be more competitive in the years to come. The school will forever be a haven of quality learning, turning every student dreams into reality. Let me end this message of expectation with these words of wisdom; what we hope to be like tomorrow depends on the choices we made today. Thank you and once again good afternoon.
